Title: METHOD OF LOCATING MOBILE COMMUNICATING  
OBJECTS WITHIN A COMMUNICATIONS NETWORK,  
COMPRISING THE TRANSMISSION OF LOCATION  
IDENTIFIERS BY REPEATERS AND SERVER UPDATES

Appl. No.: 10/565,208

Filing Date: 7/15/2004

Examiner: Unassigned

Art Unit: Unassigned

Conf. No.: 9515

**REPLY TO DECISION**

Responsive to the Decision dated October 24, 2007 dismissing the Renewed Petition under 37 CFR 1.181, *without prejudice*, Applicants submit the following:

**FINDING**

In response to Applicants' Renewed Petition under 37 CFR 1.181, the US PTO dismissed the petition for failing to include item three, of a three-prong requirement set forth in the Official Gazette at 1156 OG 53 and MPEP 711.03(c), where a petition to withdraw a holding of abandonment based on failure to receive an Office communication is presented. In particular, the Official Gazette and MPEP require that such a petition include: 1) a statement by the applicant's representative that the Office communication (in this case the 08/09/2006 decision) was not received. The US PTO indicated that this requirement has been met, 2) a statement by the applicant's representative that a search of the file jacket and docket records indicated that the Office communication was not received. The US PTO indicated that this requirement has been met, and 3) a copy of the docket record where the non-received Office communication would have been entered had it been received and docketed. The US PTO indicated that this requirement also was not met.

### RESPONSE

To satisfy the third requirement, Applicants now attach a docketing report that list responses that were due to the US PTO on October 9, 2006 for all cases handled by the applicants' representative's firm. This report illustrates that no Office communication for this application was received, nor docketed.

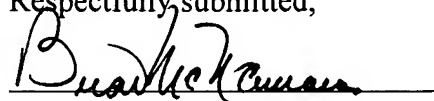

### CONCLUSION

Applicants believe that the 37 CFR 1.181 decision dismissing the renewed petition should be reconsidered and that, for the reasons set forth above, it be granted.

Date: Dec. 19, 2007
